Professional Summary:
Frontend developer with 2+ years of experience building responsive and interactive web applications using React and modern web technologies. Skilled in creating clean, user-friendly interfaces and optimizing performance.

Skills:

- React, Vue.js, Next.js

- JavaScript (ES6+), TypeScript, HTML5, CSS3

- Tailwind CSS, Material-UI

- REST APIs, Firebase

- Git, VS Code, Chrome DevTools

Experience:

- **Frontend Developer | InnovateWeb | Cairo | 2023 – Present**

    o Built interactive dashboards and web apps with React and Vue.js.

    o Improved performance and mobile responsiveness.

- **Junior Frontend Developer | Creative Labs | Cairo | 2021 – 2023**

    o Developed progressive web apps (PWAs) for e-commerce clients.

    o Integrated APIs and optimized UI for accessibility.

Projects:

- **E-Learning Platform (Vue.js + Firebase):** Interactive course platform with video streaming and quizzes.

- **Portfolio Website (React + Tailwind CSS):** Responsive site with animations and project showcase.

- **Event Management App (React + Redux):** Booking system with calendar and notifications.

Education:

- BSc in Computer Engineering | Cairo University | 2021
